...

Storm Players and STORM Token Crowdsale participants — Hold onto your STORM Tokens for even more bonus STORM Tokens!

Hello Storm Community,

The STORM Token Crowdsale will come to an end in less than a week. The success and mass adoption of the Storm Market depends on the wide distribution of STORM Tokens, so we are announcing Storm Drop, for unsold tokens (if any remain after the STORM Token Crowdsale ends), that will reward both our earliest and most active supporters.

We are announcing Storm Loyalty Program, for unsold tokens, that will reward both our earliest and most active supporters.

- Storm Drop Eligibility Requirements:Top highlight
1.

All Storm Players who have signed up with a STORM Wallet Address by December 7th, 2017. **DOWNLOAD STORM PLAY** and set up a STORM wallet address in the app to be eligible. Complete the micro-tasks in Storm Play to collect free STORM Tokens.
2.

All STORM Token Crowdsale participants that continue to store STORM Tokens in the same original wallet address where you received the STORM Tokens.
3.

STORM Tokens must stay in their genesis STORM Token wallet address — the same wallet address that was used to collect the STORM Tokens either from Storm Play or from the STORM Token Crowdsale. Once the STORM Tokens have been transferred out of the original genesis registered wallet address, you will no longer be eligible for Storm Drop.

How to Get the Most Out of the Storm Loyalty Program:

It's very simple. The longer the duration of the holding period, the more STORM Tokens you will receive in the upcoming Storm Drops. By holding STORM Tokens longer than other eligible participants, you increase the amount of tokens you receive in a Storm Drop. StormX is committed to distributing unsold tokens to our Storm Players and STORM Token Crowdsale participants as a way of increasing access to the utility of STORM Tokens.

- Dates of Upcoming Storm Drops:**
1.

June 7th, 2018
2.

December 7th, 2018
3.

June 7th, 2019
4.

December 7th, 2019

Here's an Example:

For example: IF there are 1 billion unsold STORM tokens becomes four upcoming Storm Drops of 250,000,000 STORM Tokens each:
